We are delighted to announce the beginning of a very promising collaboration between the Ludwig Wittgenstein Project and a similar initiative that aims to produce an extensive collection of translations of Wittgenstein’s works into Arabic.

The homonymous endeavour, مشروع لودفيغ فتغنشتاين (Ludwig Wittgenstein Project), was launched in 2018 in partnership with the publishing house Dar Al-Rafidain, based in Beirut and Baghdad. Its ten-year plan encompasses the first systematic translation of Wittgenstein’s works into the Arabic language as well as the translation of recent studies on his philosophy.

Starting from January 2022, thanks to this collaboration, Wittgenstein’s works will gradually become available online in Arabic as well. By February 2022, the following texts will be published: the Review of P. Coffey, “The Science of Logic”, Some Remarks on Logical Form, the Lecture on Ethics, and Philosophy. All will be licenced under Creative Commons Attribution-ShareAlike.

These texts are but the beginning of the cooperation. After completing this phase, the two projects will work together on more translations and new ideas.
